Regarding Kai Xuan

Grieg Star is bareboat charterer of the Kai Xuan, at the moment at berth in Squamish, BC.

At 02:15 am on December 18th a vibration in the ship was observed by Master and Pilot onboard the Kai Xuan as the ship was approaching Squamish port. The vessel reported a possible "touch bottom".

A diver inspection has been carried out, and no indications have been found that the vessel touched bottom. TSB inspectors are welcome, and we will assist them in every possible way in their inspection.
